

PERSONNAL INFORMATIONS

I have been playing the guitar for over 20 years now. During these years, I developed a real passion for music. Having an inexhaustible thirst for knowledge in this field, I ended up being interested in general in sound processing and M.A.O.

To complete my knowledge of sound technology, I joined ESRA, audiovisual school, in Rennes.

Particularly appreciating cinema and video games and thanks to the projects related to the image that I was led to carry out during my training, I finally turned to sound design.
